

MY GLORIOUS – LEPER

PRODUCED BY MY GLORIOUS - © 2008
MIXED BY BERNHARD GITTENBERGER

'Leper', the debut EP from rock trio My Glorious is a sonically charged, lyrically rich album that introduces this band and their unique style to today's music scene. Nathan Wesely Smith (Artist/North Carolina)

The 'Leper' EP was recorded during spring and summer 2008 at My Glorious' Vienna studio. The guys had been doing a fair amount of recording purely for the sake of experimenting with different recording methods and sounds but a release hadn't been planned for 2008. An unexpected opportunity to tour the southern U.S made a record necessary. So all the material was reviewed, re-arranged and partly re-recorded and out came 'Leper'. The sound of the EP is rough, raw and powerful, offering an alternative to the polished, often shallow music of today. 'Leper' is a good, hard look into the minds and lives of these three guys that love to create music and feel the need to express themselves. The music is strong and the lyrics very straightforward – 'an honest attempt to understand life', Samuel (lead-singer and guitarist) comments.

Leper is currently listed with iTunes and well over 200 other online stores worldwide and the actual CD is also available for purchase in the US and in Europe via CD Baby and Amazon.

TRACKLIST

Give me Time	04:37
All I ever do	04:25
More than ever before	03:58
If you break (that's alright)	04:21
Fire	03:36
Leave me Alone	03:49
